Comment. The troop trains probably carried artillary units of the 9th Macz Div which returned from Altengrabos after termination of firing practice. Comment. On 10 August 1954, three troop trains carrying large contingents of the 19th Gds Mecz Regt of the 2th Gds Mecz Div were dispatched from the Markranstaedt railroad station to an undetermined destination. The present report indicates that at least one of these trains went to the area north of the Kosnigsbrucck troop-training grounds. Comment. The schedules probably were connected with movements of companies of the 7th Gds Mecz Div to the Breaden-Falkenberg area for large-scale field exercises on and after 1 September 1954. Othervations at the Lieberose troop-training grounds indicate a withdrawal of troops since the depot which has been stationed there since May 1954 is to be moved to Fuerstemmelde between 20 August and 1 September 1954. It appears improbable that the trains were to be used for the personnel exchange movement which, in 1953, did not start until mid-October Comment. All troop trains were previously reported. Comment. The troop trains probably carried elements of the 68th Gds Mecz Div to field exercises in the Eberswelde-Bad Freienwalde area.		SECRET,				_
